CENTENNIAL COLLEGE PROGRESS CAMPUS

COURSE COMP213 FALL 2020 ASSIGNMENT #1

Create an HTML document called **index.html** that will be used as your home page on studentweb.

(80% of mark – already built as a class demo during week 01 and 02) The page should include the following required features:

- ➔ a picture at the top of the page to create a 'banner area' for your page.
- ➔ a title line (header line) to show the course number and name and the current semester.
- ➔ a smaller title line to show your name and student number.
- ➔ a bulleted list of at least 6 favorite activities to introduce yourself to the visitors of your home page.
- ➔ a copyright line at the bottom of the page to display in small characters 'Copyright' and your name, student number, course, semester.
- ➔ use the Arial or Verdana font for the entire page.
- ➔ include in your document an HTML comment (embedded in your HTML code) showing your name and student number.

(20% of mark) You are encouraged to enhance your home page by:

- ➔ adding additional content (e.g. extra pictures, additional information about yourself or your hobbies)
- ➔ refining the design (e.g. colored fonts, different font families for the titles, a background color, etc.)

Upload your **index.html** file to your personal folder on studentweb. (Place index.html **in your main folder**, not in a nested folder.)

This assignment is **due on _____ at 10 pm. (Late assignments are accepted two more days after the due date and they are marked out of 80%).**
